NEW QUESTION: 1An unchecked exception occurs in a method `dosomething()` Should other code be added in the `dosomething()` method for it to compile and execute?
A. The Exception must be caught
B. The Exception must be declared to be thrown.
C. The Exception must be caught or declared to be thrown.
D. No other code needs to be added.
Answer: D
Explanation: Explanation/Reference:Explanation:Because the Java programming language does not require methods to catch or to specify unchecked exceptions (`RuntimeException`, `Error`, and their subclasses), programmers may be tempted to write code that throws only unchecked exceptions or to make all their exception subclasses inherit from `RuntimeException`. Both of these shortcuts allow programmers to write code without bothering with compiler errors and without bothering to specify or to catch any exceptions. Although this may seem convenient to the programmer, it sidesteps the intent of the catch or specify requirement and can cause problems for others using your classes.

NEW QUESTION: 2As the request of sales management, you have created a custom Web tab for Sales Representatives in your organization.What area of the application will you use to grant all Sales Representatives access to the new tab?
A. "Global Web Applets" under "Application Customization"
B. "Personal Layout" under "My Setup"
C. "Custom Web Tabs" under "Application Customization"
D. "Access Profiles" under "User Management & Access Controls"
E. "Role Management" under "User Management & Access Controls"
Answer: E
Explanation: After you add a custom Web page to Oracle CRM On Demand, you must make it available to the user role before users can see it.
Note:You can add a role to Oracle CRM On Demand by doing the following:
*Creating a new role
*Copying an existing role, renaming the copy, and then editing the privileges and access rights of the copy
To add a role
1 In the upper right corner of any page, click the Admin global link.
2 In the User Management and Access Controls section, click User Management and Access Controls.
3 In the Role Management section, click Role Management.
4 In the Role List page, in the Translation Language field, choose your company's primary language.
5 Do one of the following:
*To create a new role by copying an existing role, click Copy on the role that you want to copy.
*To create a new role that is not based on an existing role, click New Role in the title bar of the page.
