NEW QUESTION: 1 Which permission should you designate to the Exchange administrators in the Portland office?
A. Exchange View Only Administrator
B. Enterprise Administrator
C. Exchange Full Administrator
D. Exchange Administrator
Answer: C
Explanation: They tell us E-mail manager: All administration for the Exchange Server 5.5 computers is performed by an IT group in the Portland office. Network administration for the LANs and the WAN is performed by a separate technical support group. The company executives and designers are in the Portland office. Executives should have their mailboxes backed up daily, and the backup tapes should be retained for at least one year. I also want to ensure that we can recover their mailboxes as quickly as possible and before those of other network users, if possible.
Exchange Administration Delegation Wizard Similar to Active Directory Delegation of Control Wizard, the Exchange Administration Delegation Wizard is a tool that assists in delegating responsibility for managing Exchange configuration objects in Active Directory. As described in Table 11.3, the tool allows you to assign one of three roles to groups or individual users. These roles are similar to the roles assigned in Exchange 5.5. Use the wizard to modify the organization or the individual administrative groups. Permissions are inherited from the top down, but can be overridden at lower levels if desired.
Table 11.3 Administration Delegation Wizard roles

Role	Right
Exchange View Only Administrator	View Configuration of all Exchange objects
Exchange Administrator	Modify configuration of all Exchange objects
Exchange Full Administrator	Same as Exchange Administrator with the added ability to modify permissions on exchange objects

Create groups for the purpose of delegating administration by using Exchange Administration Delegation Wizard instead of specifying individual accounts. This makes it easy to change administrative rights by changing group membership rather than having to run the wizard again.
