Why choose our website.

NEW QUESTION: 1A healthcare company specializes in hip, knee and shoulder replacement operations, known as surgical procedures. As well as providing these surgical procedures the company offers pre operation and post operation in-patient care, in a fully equipped hospital, for those patients who will be undergoing the surgical procedures. Surgeons are paid a fixed fee for each surgical procedure they perform and an additional amount for any follow-up consultations. Post procedure follow-up consultations are only undertaken if there are any complications in relation to the surgical procedure. There is no additional fee charged to patients for any follow up consultations. All other staff are paid annual salaries. The company's existing costing system uses a single overhead rate, based on revenue, to charge the costs of support activities to the procedures. Concern has been raised about the inaccuracy of procedure costs and the company's accountant has initiated a project to implement an activity-based costing (ABC) system. The project team has collected the following data on each of the procedures. Calculate the profit per procedure for each of the three procedures, using the current basis for charging the costs of support activities to procedures. What was the profit for the knee procedure? **A. \$1210 B. \$1390 C. \$1485 D. \$1510** **Answer: A**

NEW QUESTION: 2 Refer to the exhibit. How should you redesign this network running BGP to improve availability of the routers 1A and 1B at the core site? **A. Deploy BGP PIC B. Create a multichassis system with the two routers C. Use link bundles over multiple slots D. Enable graceful restart** **Answer: A**

NEW QUESTION: 3 Which choice below is NOT an element of proper media control? **A. Accurately and promptly marking all data storage media B. The proper environmental storage of the media C. Assuring the accuracy of the backup data D. The safe and clean handling of the media** **Answer: C** Explanation: "Assuring the accuracy of the backup data" is an example of a software integrity control, although the other three elements of media control listed apply to the backup tapes themselves.

NEW QUESTION: 4 SAP NetWeaverのApplication Platformレイヤーによって提供される互換性は次のうちどれですか? **A. マスタデータ管理 B. データベースとオペレーティングシステムの抽象化 C. ビジネスプロセス管理 D. マルチチャンネルアクセス** **Answer: B,D**
