NEW QUESTION: 4Topic 12, Fabrikam IncYou are a SharePoint administrator for Fabrikam, Inc. The company has a main office and three branch offices. The main office is located in Paris. The branch offices are located in New York, Tokyo, and Toronto.The company has 2,000 employees. You plan to deploy two SharePoint Server 2010 server farms. One farm will host a corporate intranet Web site and one farm will host a public Web site. The intranet will be used for collaboration and Web content management.Content Management RequirementsFabrikam has the following content management requirements for the planned SharePoint Server 2010

deployment:-Users respond to numerous requests for proposals (RFPs). Many documents are generated for each RFP. These documents must be grouped logically and must share metadata.-Users must be able to access all RFP documents from a Welcome Page.-Some of the content on the intranet site must be published automatically to the public site.-The intranet site and the public site must have the same taxonomy.-The taxonomy must be managed centrally.-Documents that are uploaded to the server farm must be classified according to the hierarchical taxonomy.-Users in the Tokyo office must be able to translate content on the intranet site from English to Japanese. The users must also be able to create content in Japanese.-A project site template named ProjectSite.wsp must be used by all of the collaboration sites.

Technical Requirements-Fabrikam has the following technical requirements for the planned SharePoint Server 2010 deployment:-Administrators must be able to backup and restore the public site and the intranet site separately.-Users must be able to access the intranet site and the public site if a single server fails.-Backups must run automatically.

Security RequirementsAll servers that contain data used by the public site must be physically isolated from the internal servers.

You are a SharePoint administrator for Fabrikam , Inc.The company has a main office and three branch offices. The main office is located in Paris. The branch offices are located in New York, Tokyo, and Toronto.The company has 2,000 employees.You plan to deploy two SharePoint Server 2010 server farms. One farm will host a corporate intranet Web site and one farm will host a public Web site. The intranet will be used for collaboration and Web content management.You need to plan a backup strategy for the server farm. Your solution must minimize costs.What should you include in the backup strategy?**A.** Windows Backup**B.** Microsoft System Center Data Protection Manager**C.** the backup-spfarm cmdlet and Task Scheduler**D.** backups from Central Administration**Answer: C**

Explanation: Section: Case 12Explanation:Task Scheduler
