**NEW QUESTION: 1** DRAG DROP You need to configure DNS for the Dublin office. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. **Answer:** Explanation:

**NEW QUESTION: 2** You have three servers named Server1, Server2, and Server3 that run Windows Server 2016. On all three servers, Windows Firewall is configured to allow ICMP traffic. Server2 has two network adapters named NIC1 and NIC2. Your network is configured as shown in the exhibit. (Click the Exhibit button.) The parameters for NIC2 on Server1 are shown in the following output. Which ping request will result in a reply from the destination host? **A.** From Server2, ping 192.168.15.1 **B.** From Server3, ping 192.168.15.1 **C.** From Server1, ping 172.16.0.1 **D.** From Server1, ping 172.16.0.35 **Answer: A**

**NEW QUESTION: 3** **A.** Option **C** **B.** Option **E** **C.** Option **B** **D.** Option **A** **E.** Option **D** **Answer: A,C**  
Explanation: Dynamic or Stateful Packet-Filtering Firewalls Stateful inspection is a firewall architecture classified at the network layer; although, for some applications it can analyze traffic at Layers 4 and 5, too. Unlike static packet filtering, stateful inspection tracks each connection traversing all interfaces of the firewall and confirms that they are valid. Stateful packet filtering maintains a state table and allows modification to the security rules dynamically. The state table is part of the internal structure of the firewall. It tracks all sessions and inspects all packets passing through the firewall. Although this is the primary Cisco Firewall technology, it has some limitations: Cannot prevent application layer attacks. Not all protocols are stateful. Some applications open multiple connections. Does not support user authentication. <http://www.ciscopress.com/articles/article.asp?p=1888110>

**NEW QUESTION: 4** The term "tom next" is used to describe a swap for which period? **A.** tomorrow against spot **B.** today against spot **C.** today against tomorrow **D.** tomorrow against the day after spot **Answer: A**
