**NEW QUESTION: 2**Which two statements about MST are true? (Choose two) **A.** it is vendor neutral **B.** all vlans must reside in a single MST region **C.** it can map multiple vlans to a single STP instance **D.** it can operate without a root bridge **E.** it supports one STP instance per VLAN  
**Answer: A,C**

**NEW QUESTION: 3**Test Tools and Automation After a selection process you have selected a test management tool that is going to be introduced in your organization and used by your test team in a pilot project. You have already identified the member of your test team who will be the administrator of the tool, since he/she has a significant experience with the administration of test management tools and so he/she is able to make effective and efficient up-front decisions about "how" the tool will be used. You have also developed a training plan for the other members of your test team. In collaboration with the administrator of the tool you have also devised standard ways of managing, storing and maintaining the tool and its assets including backup/restore procedures. You have also analyzed standard formats supported by the tool (CSV, XLS, XML, etc.) to export, import and archive all the information managed by the tool itself (requirements, test case specifications, test plans etc.) for compliance with the most important test management tools, in order to minimize the impacts of migrating this information to a new tool that could replace the existing one in the future. Which of the following phases in the lifecycle of the new tool has NOT been adequately considered in this description? Number of correct responses: 1 **K21 credit** **A.** Acquisition **B.** Evolution **C.** Support and maintenance **D.** Retirement **Answer: B**
