NEW QUESTION: 1Who should be responsible for enforcing access rights to application data?**A.** Data owners**B.** Security administrators**C.** Business process owners**D.** The security steering committee**Answer: B****Explanation:**As custodians, security administrators are responsible for enforcing access rights to data. Data owners are responsible for approving these access rights. Business process owners are sometimes the data owners as well, and would not be responsible for enforcement. The security steering committee would not be responsible for enforcement.

NEW QUESTION: 2You are completing the installation of the Data Quality Server component of SQL Server Data Quality Services (DQS).You need to complete the post-installation configuration.What should you do?**A.** Install the data providers that are used for data refresh.**B.** Run the DQSInstaller.exe command.**C.** Run the dbimpexp.exe command.**D.** Install ADOMD.NET.**Answer: B****Explanation:**ExplanationReferences:
