NEW QUESTION: 1 DRAG DROP What is the correct sequence of prerequisites before a Dell EMC NetWorker CloudBoost device can be created?**Answer:** Explanation:

NEW QUESTION: 2 After interviewing a customer to understand wireless client requirements, you determine that 802.11b must be enabled to support legacy clients within a mixed-mode environment. Which recommendation will have the greatest impact on mitigating the effects of 802.11b clients on the rest of the network?**A.** Restrict OFDM modulation from being used.**B.** Make 11 Mb/s the lowest mandatory rate.**C.** Enable a separate SSID for 802.11b clients.**D.** Enable a short preamble.**Answer: B**

NEW QUESTION: 3 The following portion of the test includes several Case Studies. Each Case Study includes introductory information about a specific company or audit situation, followed immediately by a set of questions related to the situation described and various audit-related documents, identified by company name. All of the audit-related documents for these Case Studies are presented in a separate booklet labeled: CONFIDENTIAL Audit Documents These documents were drawn from actual companies and are designed to be examples of genuine audit materials. Their format and contents have not been altered, and they are intended to represent working documents from everyday situations. Although the documents for the Case Studies are presented separately, the test will be scored as a whole, on a total of 150 questions. You may go back and check your work on any part of the examination until time is called at the end of the testing period. Two auditors are conducting an internal audit of the Quality Electronics and Elements Co. (QEE) system procedures. During the first day of the audit, the following observations were made. An outbound carton with obvious damage was examined by the auditor on the shipping dock. A shipment of six (6) boxes to Allied Supply was returned because the customer-required certifications did not accompany the product. Unsigned product verification documents were found on stored products. Of three (3) cartons found in the accepted materials station, only two of the cartons had labels indicating their contents. When the auditor pointed this out, a customer service representative immediately affixed the proper label to the one unlabeled carton. The auditor also found that "Accepted Material Traveler Cards" were not attached to any of the cartons in the accepted materials station. Which department is responsible for determining whether an outbound product has been damaged in handling or storage?**A.** Engineering**B.** Shipping**C.** Inventory Control**D.** Quality Assurance
Answer: B
