Boost Your Confidence by using C-THR97-2311 Practice Exam Questions.

NEW QUESTION: 1 Analytical reviews are audit tests that involve a comparison of some type. There are several types of analytical reviews please choose the correct option: **A.** Regression analysis **B.** Cost/benefit analysis **C.** All of above **D.** Ratio analysis and Cost-effectiveness analysis, **Answer: C**

NEW QUESTION: 2 You have a Microsoft 365 subscription. Your network uses an IP address space of 51.40.15.0/24. An Exchange Online administrator recently created a role named Role1 from a computer on the network. You need to identify the name of the administrator by using an audit log search. For which activities should you search and by which field should you filter in the audit log search? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point. **Answer:** Explanation: Explanation

NEW QUESTION: 3 Which IOS XR Software feature supports establishing point-to-point and point-to-multipoint TE tunnels traversing multiple IGP areas and levels allowing headend and tailend routers to reside in different areas? **A.** loose hop expansion **B.** interarea support **C.** FRR node protection **D.** loose hop reoptimization **Answer: B** Explanation: Explanation Interarea Support The MPLS-TE interarea tunneling feature allows you to establish TE tunnels spanning multiple Interior Gateway Protocol (IGP) areas and levels, thereby eliminating the requirement that headend and tailend routers reside in a single area. Interarea support allows the configuration of a TE LSP that spans multiple areas, where its headend and tailend label switched routers (LSRs) reside in different IGP areas. Multiarea and Interarea TE are required by the customers running multiple IGP area backbones (primarily for scalability reasons). This lets you limit the amount of flooded information, reduces the SPF duration, and lessens the impact of a link or node failure within an area, particularly with large WAN backbones split in multiple areas.
