So our assistance is the most professional and superior.

NEW QUESTION: 1You are creating an app that uses Event Grid to connect with other services. Your app's event data will be sent to a serverless function that checks compliance. This function is maintained by your company. You write a new event subscription at the scope of your resource. The event must be invalidated after 3 specific period of time. You need to configure Event Grid to ensure security. What should you implement? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point

Answer: Explanation: Explanation: Box 1: SAS tokens Custom topics use either Shared Access Signature (SAS) or key authentication. Microsoft recommends SAS, but key authentication provides simple programming, and is compatible with many existing webhook publishers. In this case we need the expiration time provided by SAS tokens. Box 2: ValidationCode handshake Event Grid supports two ways of validating the subscription: ValidationCode handshake (programmable) and ValidationURL handshake (manual). If you control the source code for your endpoint, this method is recommended. Incorrect Answers: ValidationURL handshake (manual): In certain cases, you can't access the source code of the endpoint to implement the ValidationCode handshake. For example, if you use a third-party service (like Zapier or IFTTT), you can't programmatically respond with the validation code. References: <https://docs.microsoft.com/en-us/azure/event-grid/security-authentication>

NEW QUESTION: 2 A. Option CB. Option DC. Option AD. Option B **Answer: D** Explanation: See 2) below. - Deploy with an Authorized Mobility Partner To take advantage of License Mobility, you can deploy on Windows Azure or work with any Authorized Mobility Partner. They need to have a current Microsoft Services Provider License Agreement in place to accept your assigned licenses and deploy them as appropriate to your chosen hosted deployment solution. - Submit a License Verification Form Within 10 days of deployment, complete the License Verification Form available on the Volume Licensing website and provide it to your Microsoft representative or preferred resell partner, so he or she can submit your form to Microsoft. Once submitted, Microsoft will confirm your eligibility and communicate your verification status to you and your chosen Authorized Mobility Partner.

NEW QUESTION: 3 All are common email headers except? A. Bcc B. Errors-To C. X-Receiver D. Mime-Version **Answer: C**
