NEW QUESTION: 1Your network contains an Active Directory domain named contoso.com.You log on to a domain controller by using an account named Admin1. Admin1 is a member of the Domain Admins group.You view the properties of a group named Group1 as shown in the exhibit. (Click the Exhibit button.)Group1 is located in an organizational unit (OU) named OU1. You need to ensure that you can modify the Security settings of Group1 by using Active Directory Users and Computers.What should you do from Active Directory Users and Computers?**A.** From the View menu, select Advanced Features**B.** Right-click contoso.com and select Delegate Control.**C.** Right-click OU1 and select Delegate Control**D.** From the View menu, select Users, Contacts, Groups, and Computers as containers.**Answer: A****Explanation:** ExplanationFrom ADUC select view toolbar then select advanced features. When you open up the ADUC in a default installation of Active Directory, you are only presented with the basic containers. These basic containers include the only organizational unit (OU), which is the Domain Controllers OU, as well as the other containers such as Users and Computers. To see more in-depth containers, you need to configure the ADUC by going to the View option on the toolbar, then selecting Advanced Features. This will refresh the view within the ADUC and add some new containers. There are no hidden (or Advanced) OUs that will show up when you configure the ADUC in this way.

NEW QUESTION: 2There is VPN Client -side,LAC, LNS and other three components of the application scenario, which of the following components used between the L2TP TUNNEL?(Choose two)**A.** Between the VPN Client and LAC**B.** Between the VPN Client and LNS**C.** Between LAC and LNS**D.** All other options are correct**Answer: B,C**
