NEW QUESTION: 1 Attribute data are discrete whole numbers and not continuous. Examples of attribute data plotted as ratio data on u-charts include figures such as: **A.** Percentage of surgical compilations divided by the percentage number of surgeries **B.** Total number of patient falls per patient day **C.** Total number of medication errors per total number of pneumonia patients **D.** Percentage of patients readmitted to the hospital within 30 days **Answer: B**

NEW QUESTION: 2 Which of the following expressions most likely would be included in a management representation letter? **A.** There are no significant deficiencies in internal control identified during the prior-year's audit of which those charged with governance are unaware. **B.** No events have occurred subsequent to the balance sheet date that require adjustment to, or disclosure in, the financial statements. **C.** We do not intend to provide any information that may be construed to constitute a waiver of the attorney-client privilege. **D.** Certain computer files and other required audit evidence may exist only for a short period of time and only in computer-readable form. **Answer: B** **Explanation:** Explanation/Reference: Explanation: Choice "A" is correct. It is appropriate for the representation letter to contain a statement regarding subsequent events. Choice "B" is incorrect. The representation letter typically includes information in four categories: financial statements; completeness; recognition, measurement, and disclosure; and subsequent events. The communication of significant deficiencies in internal control does not fall within these categories. Choice "C" is incorrect. The representation letter typically includes information in four categories: financial statements; completeness; recognition, measurement, and disclosure; and subsequent events. A waiver of attorney-client privilege does not fall within these categories. Choice "D" is incorrect. While this may be an accurate statement, it is not something that would be included in the management representation letter. The representation letter typically includes information in four categories: financial statements; completeness; recognition, measurement, and disclosure; and subsequent events.

NEW QUESTION: 3 Which three options will ensure that all machines deployed by the finance business group have the same Distributed Firewall rules? (Choose three.)
A. Using Service Composer, create a Security Policy named Finance with the firewall rules.
B. Using Service Composer, create a Security Group named Finance based on machine name and specify the Finance Groups Machine Prefix.
C. Using the Distributed Firewall, create a Security Group named Finance based on machine name and specify the Finance Groups Machine Prefix.
D. Using the Distributed Firewall, create a Security Policy named Finance with the firewall rules.
E. Using Service Composer, assign the Finance Security Policy to the Finance Security Group.
Answer: A,B,E

NEW QUESTION: 4 You have an Azure subscription that contains two virtual networks named VNet1 and VNet2. Virtual machines connect to the virtual networks. The virtual networks have the address spaces and the subnets configured as shown in the following table. You need to add the address space of 10.33.0.0/16 to VNet1. The solution must ensure that the hosts on VNet1 and VNet2 can communicate. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.
Answer: Explanation: Explanation
Step 1: Remove peering between Vnet1 and VNet2. You can't add address ranges to, or delete address ranges from a virtual network's address space once a virtual network is peered with another virtual network. To add or remove address ranges, delete the peering, add or remove the address ranges, then re-create the peering.
Step 2: Add the 10.44.0.0/16 address space to VNet1.
Step 3: Recreate peering between VNet1 and VNet2
