NEW QUESTION: 1You have a computer that runs Windows 7.You mark a folder as Always available offline.You need to verify that an offline copy of the folder has been created on the computer.What should you do?**A.** Open Sync Center and review the status.**B.** Open Action Center and review any messages or issues.**C.** Open Windows Mobile Device Center and review the status.**D.** Open Network and Sharing Center and review the status for the local area connection.**Answer: A****Explanation:**What is Sync Center?Sync Center allows you to check the results of your recent sync activity if you've set up your computer to sync files with a network server. This allows you to access copies of your network files even when your computer isn't connected to the network. Sync Center can tell you if the files synced successfully or if there are any sync errors or warnings. NoteSync Center is designed to help you sync with files in network locations. If you want to sync a mobile device with your computer, such as a mobile phone or portable music player, Windows gives you several other options. You can install the sync software that some manufacturers include with their device, or you can use the new Device Stage feature in this version of Windows if your device supports this feature. For more information, see Sync music, pictures, contacts, and calendars with a mobile device.
