Get on reasonable price H19-462_V1.0 training product.

NEW QUESTION: 1You have an Azure Stack integrated system.From an administrator workstation, you plan to publish a Marketplace item that is based on a custom Azure Resource Manager template.You download the template. Which files must be available before you can publish the Marketplace item by using the Marketplace Toolkit?**A.** the AzureRM.Bootstrapper module, icon files, and the Azurestack-Tools GitHub repository**B.** Manifest.json and AzureGalleryPackager.exe**C.** the Azurestack-Tools GitHub repository and Manifest.json**D.** a thumbnail image, icon files, and AzureGalleryPackager.exe**Answer: B**

NEW QUESTION: 2Scenario:Please read this scenario prior to answering the questionThe ABC company started as an accounting and financial services company. It has expanded over the years and is now a leading North American IT and Business Services provider.With numerous practice areas and a multitude of diverse engagements underway at any given time,overall engagement management has become challenging. The company does not want to risk its outstanding reputation or its international certifications and CMM ratings. Senior partners must become team players, working to support the broader needs of the company and its shareholders.The Enterprise Architecture team has been working to create the company's Enterprise Architecture framework to address these issues. The team has defined a preliminary framework and held workshops with key stakeholders to define a set of principles to govern the architecture work. They have completed an Architecture Vision at a strategic level and laid out Architecture Definitions for the four domains. They have set out an ambitious vision of the future of the company over a five-year period.An Architecture Review Board has been formed comprised of IT staff executives and executives from the major practice areas.The Chief Executive Officer and Chief Information Officer have co-sponsored the creation of the Enterprise Architecture program. The Enterprise Architecture framework is based on TOGAF 9. As the EA team prepare to formulate an Implementation plan, they have been asked by the CIO to assess the risks associated with the proposed architecture. He has received concerns from senior management that the proposed architecture may be too ambitious and they are not sure it can produce sufficient value to warrant the attendant risks.Refer to the Scenario You have been assigned to the role of Chief Enterprise Architect.You have been asked to recommend an approach to satisfy the concerns raised.Based on TOGAF 9, which of the following is the best answer?**A.** The EA team should create a consolidated gap analysis to understand the transformations that are required to achieve the proposed Target Architecture. The EA team should gather information about potential solutions from the appropriate sources. Once the

Solution Architecture has been assembled, it should be analyzed using a state evolution table to determine the Transition Architectures. An interoperability analysis should be applied to evaluate any potential issues across the Solution Architecture. **B.** An interoperability analysis should be applied to evaluate any potential issues across the Solution Architecture. Once all of the concerns have been resolved, the EA team should finalize the Architecture Implementation Roadmap and the Migration Plan. **C.** Prior to preparing the Implementation plan, there are several techniques that should be applied to assess the risks and value of the proposed transformation. In particular, the EA team should pay attention to the Business Transformation Readiness Assessment and the Business Value Assessment. **D.** The EA team should gather information about potential solutions from the appropriate sources. Once the Solution Architecture has been assembled, it should be analyzed using a state evolution table to determine the Transition Architectures. **Answer: C**

NEW QUESTION: 3 Which of the following items are generally analyzed by Internet filters? Each correct answer represents a complete solution. Choose three. **A.** Uniform Resource Locators (URLs) **B.** Network Topology **C.** Certificates **D.** Content **Answer: A,C,D**
