Option 1: Request Exam Request your exam here [AIF-C01 Practice Exam Fee](#) and Estruturit will get you notified when the exam gets released at the site.

NEW QUESTION: 1 DRAG DROP You have an Exchange Server 2013 organization that contains a database availability group (DAG). There are four copies of every mailbox database. One of the copies is a lagged copy configured to have a replay lag time of 14 days. All mailboxes have single item recovery enabled. All databases are configured to have a deleted item retention period of seven days. A company executive reports that an email message, which was deleted 10 days ago, must be restored. You need to ensure that you can recover the email message from the lagged copy of the mailbox database. The solution must preserve the lagged copy of the mailbox database. Which three actions should you perform? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order. **Answer:** Explanation:
