Therefore, the effect of the user using the latest C-THR12-2311 exam dump is the only standard for proving the effectiveness and usefulness of our products.

NEW QUESTION: 1Mark Construction Company (MCC) has bagged a contract for construction of a large dam and hydro power project on river Shivna in Madhya Pradesh (MP). The project is also of relevance from the irrigation perspective due to its location and as per the agreement MCC will have to undertake construction of web of canals, approach road to dam, power house and other ancillary units. MCC is promoted by Mr. Thomas Mark, who is a MP from the ruling party which recently formed government in MP. Historically, MCC has been engaged into construction of rural roads, small bridges and railway platforms on contract basis for the Government. MCC will have a separate special purpose vehicle (SPV) floated for this venture. The hydro power project comes under the public private partnership scheme of the Government of MP, where in the private partner builds owns operates and transfers (BOOT) the hydro power plant. The detailed terms of the hydro power project agreement are as follows:1. The construction of the dam, canals and hydro power plant shall be undertaken by the contractor. The Government of MP will have to acquire land which will submerge on construction of dam and shall rehabilitate the owners of land.2. MCC shall have right to operate the hydro power project from date of commencement of commercial operations (DCCO) for a period of 20 years and shall transfer the project to Government thereafter. Further, SPV shall be tax exempt for a period of five years from DCCO i.e. FY17-FY21.3. The power project is of 600 megawatts (MW) shall comprise 4 units of 150 MW each. The estimated cost of project is about INR3, 500 Million to be spent over a period of 4 year(s) the project is estimated to be commercially operational by April 1, 2016 with two units operational on same day and one unit each will be operational on April 1, 2017 and April 1, 2018.4. Means of finance:Means of Finance INR MillionGovernment Aid (To be classified as Equity) 500Equity 900 Debt 21005. Amount if expenditure estimated in various years is as follows:Debt shall bear a fixed rate of interest of 10% and all interest till DCCO shall be added to the principal. The expected principal along with capitalized interest is expected to be INR2, 400 Million (i.e.INR2100 Million debtplus INR300

Million capitalized interest). The repayment of the same shall be in 12 equated annual installments starting from FY17. Brief projections for the period of FY17 to FY21 are given below: Developments as on March 31, 2015 The project manager for the SPV made following comments at a press conferee on March 31, 2015: As you all are aware, we were running bang on schedule till we last met on December 21, 2014. From today we are just left with one more year to complete the project in time. However, the flash floods which struck our dam site on this March 15, 2015 have created havoc in the region. I shall not point out the loss of lives in the region as you all are well aware of those. Our project has also been badly hit due to the same and we have been assessing the damage over the last one week. After analyzing damage, we have made changes in project schedule. Now we will be making only one unit of 150 MW operational on April 1, 2016 and 1 unit each will be added in each of subsequent year(s). Development as on September 30, 2015 Post the flash floods, lot of environmentalists started raising issues of changes in environment due to construction of large number of dams. A few Public Interest Litigations (PILs) have been filed in various courts. Honorable High Court of MP on September 27, 2015, banned construction of any dams in the region and banned permissions for new dams till next hearing scheduled on November 30, 2015. MCC in its press release has indicated that they will apply to the higher court on the matter. As a credit rating analyst on September 30, 2015, on receipt of the high court order, what rating action you will take: **A.** Put ratings on rating watch. **B.** Immediately downgrade ratings of SPV. **C.** No action, wait for order if higher courts or hearing on November 30, 2015. **D.** Change rating outlook for long term to negative. **Answer: A**

NEW QUESTION: 2 **A.** Signature-based anti-malware **B.** Cloud-based anti-malware **C.** Network-based anti-malware **D.** Host-based anti-malware **Answer: D** Explanation: Explanation https://en.wikipedia.org/wiki/Intrusion_detection_system

NEW QUESTION: 3 Was sind neue Funktionen von SAP S / 4 HANA in Bezug auf MRP? **A.** Automatisierter MRP-Lauf **B.** MRP Live **C.** Verbrauchsmodus "Verbrauch in eigener Periode" **D.** Standardmäßig endliche Dispositionsplanung **Answer: B,C**

NEW QUESTION: 4 You are the project manager of the AHQ project. This project is scheduled to last for six months and will require \$345,000 to complete. If the project completes earlier than scheduled, your organization will receive a bonus of \$5,000 per day of early completion. Management has asked you to develop an aggressive schedule to realize as much of the bonus as possible, but management does not want you to increase the costs of the project beyond \$1,000 per day of the bonus realization. Which of the following approaches will likely add costs to the project? **A.** Adding leads to the project work **B.** Crashing **C.** Fast tracking **D.** Using the critical chain method **Answer: B** Explanation: Crashing adds labor to the project. This approach adds costs to the project because you will have to pay for the added labor. Answer option B is incorrect. Fast tracking allows entire phases to overlap in the project. This approach adds risks to the project. Answer option D is incorrect. The critical chain method considers the availability of project resources. Answer option A is incorrect. Adding lead time to activities allows activities to overlap and does not add project costs.
