**NEW QUESTION: 1** A travel company has created a business process scorecard for its Rewards points redemption process, which has five steps. The scorecard works properly, but the program director wants the scorecard to only show results from the United States, as the program had not yet been launched in other countries. The analyst edited the scorecard to use the "Geography" report group and the "Registration: Country-USA" dimension, as follows: However, upon saving the edited process scorecard, three of the steps are now missing. What must the analyst modify? **A.** Change the Permissions for the scorecard. **B.** Adjust the Grades to accommodate the report group. **C.** Add the Geography report group to the events missing from the scorecard. **D.** Create a new scorecard; do not edit an operational scorecard. **Answer: C**

**NEW QUESTION: 2** An \_\_\_\_\_ serves as the audit department's statement of purpose, authority, and responsibility. Audit charters should be \_\_\_\_\_. These are usually brief documents written in general terms. Applicable governing statutes often dictate the specific elements to include in the charter for governmental entities: **A.** Audit report, not in writing **B.** Audit charter, in writing **C.** Financial report, in writing **D.** Financial report, not in writing **Answer: B**

**NEW QUESTION: 3** A network design team is experiencing sustained congestion on access and distribution uplinks. QoS has already been implemented and optimized, and it is no longer effective in ensuring optimal network performance. Which two actions can improve network performance? (Choose two.) **A.** Reconfigure QoS based on the IntServ model. **B.** Utilize random early detection to manage queues. **C.** Implement higher-speed uplink interfaces. **D.** Bundle additional uplinks into logical EtherChannels. **E.** Configure selective packet discard to drop noncritical network traffic. **Answer: C,D**
