Download latest HPE7-M02 Exam Dumps for the Advanced HPE Storage Solutions Written Exam exam in PDF file format, Here are several advantages about our Advanced HPE Storage Solutions Written Exam exam practice material for your reference.

**NEW QUESTION: 1**Your task is to configure storage for an Oracle Solaris 11 system to support multiple web servers. Each web server will be contained in a separate zone. The system has an attached disk array configured as a JBOD (Just a Bunch Of Disks). The system also has an internal solid-state drive. The data accessed through the websites will be primarily read-only. The web servers are expected to be very busy, so configure the storage for maximum performance. Because the data is primarily static, but redundancy is required to maintain high availability in the event of a hardware failure. Data does not change often, but it is expected that the same data will be accessed many times throughout the day. Which configuration option best meets the data storage requirements?  
**A.** a mirrored storage pool with a separate log device  
**B.** a raid2 storage pool with a separate log device  
**C.** a mirrored storage pool with a separate cache device  
**D.** a three disk striped storage pool with a separate cache device  
**E.** a raidz1 storage pool with a separate log and cache device  
**Answer: C**  
**Explanation:** Required to maintain high availability --> use a mirror. The same data will be accessed many times throughout the day. Configure the storage for maximum performance. Use caching.

**NEW QUESTION: 2**You have a Microsoft Exchange Server 2019 organization and a Microsoft 365 E5 subscription. From the Microsoft 365 admin center, you open Data migration as shown in the following exhibit. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point.  
**Answer:** Explanation: Explanation: References:
