NEW QUESTION: 1A system administrator is tasked with dividing the network so that each department is separate from the other. Which of the following should be used to accomplish this task?**A.** VPN**B.** VLAN**C.** VMD**D.** VNC**Answer: B**

NEW QUESTION: 2Which of the following matters would an auditor most likely communicate to those charged with governance?**A.** The level of responsibility assumed by management for the preparation of the financial statements.**B.** A list of negative trends that may lead to working capital deficiencies and adverse financial ratios.**C.** The effects of significant accounting policies adopted by management in emerging areas for which there is no authoritative guidance.**D.** Difficulties encountered in achieving a satisfactory response rate from the entity's customers in confirming accounts receivables.**Answer: C**
Explanation:Explanation/Reference:Explanation: Choice "D" is correct. The auditor should communicate the initial selection of, and changes in, significant accounting policies to those charged with governance. Choice "A" is incorrect. Negative trends and adverse financial ratios are evaluated by an auditor when considering an entity's ability to continue as a going concern. These trends and ratios are not required to be communicated to those charged with governance. Choice "B" is incorrect. The auditor's communications to those charged with governance include the level of responsibility that the auditor is assuming regarding matters of interest to those charged with governance, not the level of responsibility assumed by management. Choice "C" is incorrect. The auditor is required to inform the audit committee about difficulties encountered with management during the audit. Difficulties encountered in achieving a satisfactory response rate from the entity's customers in confirming accounts receivables generally would not be communicated to those charged with governance, since such difficulties are not related to management.

NEW QUESTION: 3You need to implement client-side animations according to the business requirements. Which two code segments will each achieve the goal? Each correct answer presents a complete solution.**A.** `$("#h1: first").animate({ opacity: 0 });`**B.** `$("#h1: first").animate({ opacity: 1 });`**C.** `$("#h1: first").fadeOut(1000);`**D.** `$("#h1: first").fadeIn(1000);`**Answer: A, C**
Explanation:Explanation/Reference:Explanation: From scenario: Information about the first product on the product page must fade out over time to encourage the user to continue browsing the catalog.
