We understand your drive of the certificate, [Exam C\\_TS410\\_2022 Voucher](#) so you have a focus already and that is a good start.

**NEW QUESTION: 1** Refer to the exhibit. When the user "contractor" Cisco AnyConnect tunnel is established, what type of Cisco ASA user restrictions are applied to the tunnel?  
**A.** full restrictions (no read, no write, no execute permissions)  
**B.** full access with no restrictions  
**C.** full restrictions (CLI show commands and Cisco ASDM monitoring permissions only)  
**D.** full restrictions (no Cisco ASDM, no CLI, no console access)  
**Answer: B**

**NEW QUESTION: 2** **A.** Option B **B.** Option A **C.** Option C **D.** Option D  
**Answer: B**  
Explanation: You can configure AnyConnect to establish a VPN session automatically after the user logs in to a computer. The VPN session remains open until the user logs out of the computer, or the session timer or idle session timer expires. The group policy assigned to the session specifies these timer values. If AnyConnect loses the connection with the ASA, the ASA and the client retain the resources assigned to the session until one of these timers expire. AnyConnect continually attempts to reestablish the connection to reactivate the session if it is still open; otherwise, it continually attempts to establish a new VPN session.
