NEW QUESTION: 1Ein Netzwerktechniker führt eine Erstkonfiguration eines neuen Netzwerkschalters durch. Gemäß den Unternehmensrichtlinien erfolgt die Remoteverwaltung des Switch nur über eine Befehlszeile. Welches der folgenden Protokolle sollte der Techniker deaktivieren, um die Unternehmensrichtlinien einzuhalten?**A. TelnetB. SSHC. TFTPD. HTTP**
Answer: A

NEW QUESTION: 2In which cases would a people counting analytic be used with an Axis camera (Choose three)?**A. Enhanced service levels for public transportationB. Crowd detection for marketing purposeC. Fire protection in subwaysD. Early warning system for floodingE. Statistics for retail stores**
Answer: A,B,E

NEW QUESTION: 3HOTSPOT**Answer:** Explanation:

NEW QUESTION: 4You work as a network engineer for the company, you want to configure two BGP speakers to form an EBGP session across a firewall. On the engineer's network, the firewall always permits TCP sessions that are initiated from the inside network (the network attached to the inside interface of the firewall). What prerequisite is there for enabling BGP to run on this network?**A. There is no way to make BGP work across a firewall.B. This should work with normal BGP peering, with no additional configuration on the BGP speakers or the firewall.C. The BGP protocol port must be opened on the firewallD. EBGP multihop will need to be configured for this to work.****Answer: C**
Explanation:If TCP Port 179 is open for BGP than eBGP multihop must also be enabled Because BGP uses unicast TCP packets on port 179 to communicate with its peers, you can configure PIX1 and PIX2 to allow unicast traffic on TCP port 179. This way, BGP peering can be established between the routers that are connected through the firewall. Redundancy and the desired routing policies can be achieved through the manipulation of the BGP attributes.The neighbor ebgp-multihop command enables BGP to override the default one hop eBGP limit because it changes the Time to Live (TTL) of eBGP packets from the default value of 1Reference ASA/PIX: BGP through ASA Configuration Example http://www.cisco.com/en/US/tech/tk365/technologies_configuration_example09186a008009487d.s.html
