Moreover, DP-300 exam braindumps of us will offer you free update for one year, and you can get the latest version of the exam dumps if you choose us, We believe that DP-300 study tool will make you fall in love with learning.

NEW QUESTION: 1 Ein Unternehmen verwendet einen Drittanbieterantrag und einen Genehmigungsprozess per E-Mail. Ende des Monats gibt die IT-Abteilung die Daten in Microsoft Excel ein, um Pivot-Diagramme zu erstellen. Die Excel-Pivot-Diagramme müssen dieselbe Datenquelle wie der Dynamics 365 Field Service verwenden, um Diagramme und Berichte zu generieren. Sie müssen eine Lösung empfehlen. Was solltest du empfehlen? Um zu antworten, wählen Sie die entsprechende Konfiguration im Antwortbereich. **HINWEIS:** Jede richtige Auswahl ist einen Punkt wert. **Answer:** Explanation: Explanation Box 1: Dynamics 365 Workflow notifications You can configure the system to send email messages to users when workflow-related events occur. Note: * Go to Navigation pane > Modules > System administration > Users > Users. * In the list, find and select the desired record. * On the Action pane, click User options. * Click the Workflow tab. Make sure that the Notifications section is expanded. In the Notifications section, you can specify how you want the user to be notified about workflow-related events. Box 2: Dynamics 365 Field Service Supply Chain Management enables synchronization of business processes between Dynamics 365 Supply Chain Management and Dynamics 365 Field Service. The integration scenarios are configured by using extensible Data integrator templates and Common Data Service to enable the synchronization of business processes. Standard templates can be used to create custom integration projects, where additional standard and custom fields and entities can be mapped to adjust the integration and meet specific business needs. NEW QUESTION: 2 A user is having data generated randomly based on a certain event. The user wants to upload that data to CloudWatch. It may happen that event may not have data generated for some period due to randomness. Which of the below mentioned options is a recommended option for this case? **A.** For the period when there is no data the user should send a blank value **B.** For the period when there is no data, the user should not send the data at all **C.** For the period when there is no data the user should send the value as 0 **D.** The user must upload the data to CloudWatch as having no data for some period will cause an error at CloudWatch monitoring **Answer: C** Explanation: Explanation AWS CloudWatch supports the custom metrics. The user can always capture the custom data and upload the data to CloudWatch using CLI or APIs. When the user data is more random and not generated at regular

intervals, there can be a period which has no associated data. The user can either publish the zero (0) value for that period or not publish the data at all. It is recommended that the user should publish zero instead of no value to monitor the health of the application. This is helpful in an alarm as well as in the generation of the sample data count.

NEW QUESTION: 3 You are designing the aggregation layer for a data center that will use Cisco Nexus 5000 Series Switches. The data center will have more than 500 Fibre Channel domains. Which configuration is required for the design? **A.** DCNM for SAN must be installed and configured. **B.** Access switches must be in N Port proxy mode. **C.** The SAM director switch must be installed and configured. **D.** Access switches must be in N Port mode. **Answer: C**
