**NEW QUESTION: 2**You are designing an application to parse images of business forms and upload the data to a database. The upload process will occur once a week.You need to recommend which services to use for the application. The solution must minimize infrastructure costs.Which services should you recommend? To answer, select the appropriate options in the answer area.NOTE: Each correct selection is worth one point.**Answer:**

Explanation:ExplanationBox 1: Azure Cognitive ServicesAzure Cognitive Services include image-processing algorithms to smartly identify, caption, index, and moderate your pictures and videos.Not: Azure Linguistic Analytics API, which provides advanced natural language processing over raw text.Box 2: Azure Data FactoryThe Azure Data Factory (ADF) is a service designed to allow developers to integrate disparate data sources. It is a platform somewhat like SSIS in the cloud to manage the data you have both on-prem and in the cloud.It provides access to on-premises data in SQL Server and cloud data in Azure Storage (Blob and Tables) and Azure SQL Database.References:
