Also we do not have any limit for your downloading and using time of C_HRHPC_2311 exam questions so you will not have any worry in using after purchase.

NEW QUESTION: 1Your client would like to use the Taleo offer Management functionality for their corporate recruiting needs. What needs to be configured to enable offer management?**A.** The Statuses for the organization's Offer Process should be mapped to the RSOffer step and added to the CSW for the corporate positions.**B.** Offer Management should be turned on In the Administration Module under Recruiting > Settings.**C.** A step should be created called Offer with the reference model called Offer and added to the CSW for the corporate positions.**D.** The step called RSOffer should be added to the CSW for the corporate positions.**Answer: C****Explanation:** CSW and Offer step Using the Offer step is a simplified way to track offer activity in a candidate hiring process withoutenabling the entire Offer Management module functionality. Placing this step in a workflow will notenable the use of the Offers tab and Offer Approvals tab. A candidate selection workflow containing an Offer step allows users to move candidates from one step to another using standard actions (Change Step/Status, Move, Revert).

NEW QUESTION: 2DRAG DROP**Answer:** Explanation:Step 1: Enable Resource GovernorThe Resource Governor is turned off by default. You can enable the Resource Governor by using either SQL Server Management Studio or Transact-SQL.Step 2: Create a resource pool.In the SQL Server Resource Governor, a resource pool represents a subset of the physical resources of an instance of the Database Engine.Step 3: Create a workload groupIn the SQL Server Resource Governor, a workload group serves as a container for session requests that have similar classification criteri a. A workload allows for aggregate monitoring of the sessions, and defines policies for the sessions. Each workload group is in a resource pool, which represents a subset of the physical resources of an instance of the Database Engine. When a session is started, the Resource Governor classifier assigns the session to a specific workload group, and the session must run using the policies assigned to the workload group and the resources defined for the resource pool.Step 4: Write a classifier function.The SQL Server resource governor classification process assigns incoming sessions to a workload group based on the characteristics of the session. You can tailor the classification logic by writing a user- defined function, called a classifier function.
