Der Mandant enthält die in der folgenden Tabelle aufgeführten Benutzer. Sie planen, eine Cloud-Ressource für die Gruppe Alle Benutzer freizugeben. Sie müssen sicherstellen, dass Benutzer1, Benutzer2, Benutzer3 und Benutzer4 erfolgreich eine Verbindung zur Cloud-Ressource herstellen können. This group represents the entire collection of the Active Directory users, including guests and external users, that you can use to make the access permissions easier to manage within your directory. Incorrect Answers: A, B: User3 and User4 are guests already. Note: By default, all users and guests in your directory can invite guests even if they're not assigned to an admin role. External collaboration settings let you turn guest invitations on or off for different types of users in your organization. You can also delegate invitations to individual users by assigning roles that allow them to invite guests. References:
