A. Volume Licensing Service Center
B. Explore.ms
C. Microsoft Gear Up
D. Microsoft Store Online
Answer: A
Explanation: Topic 11, Litware, Inc. Company Background Corporate Information Litware, Inc. is a provider of managed services. Litware has 290 employees. It expects an increase of 15 to 30 new employees each year. Physical Locations Litware has a main office and 10 branch offices. The main office is located in the United States. The branch offices are located in Japan, Korea, and Spain. The company's main office makes all technology decisions. Existing Environment Existing Licensing Solution Litware purchases licenses through the Open License program and the OEM program. The cost of software licenses prevents Litware from implementing new technologies. Existing IT Environment The desktops run different version of Windows and Microsoft Office. Some of the desktops came preinstalled from the manufacturer. Litware has an external facing Web portal that runs on a third-party application. The Web portal runs on a Windows Server 2008 R2 server and has SQL Server installed. The company's customers use the Web portal. The IT department upgrades software every two years and replaces one-third of the desktops every year. Business Requirements Problem Statements An administrator and a developer are required full time to manage and perform updates to the third-party application and the Web portal. Planned Software Changes During the next three years, Litware plans to install the current versions of the following software:-----Windows Server Windows 7 Professional Microsoft Exchange Server Microsoft System Center Configuration Manager Microsoft System Center Operations Manager Microsoft SQL Server Microsoft Office Professional Plus Microsoft Communications Server Microsoft SharePoint Server Microsoft Forefront Protection Suite Business Goals Litware has the following business goals:-----Implement a software purchasing process to improve compliance and prevent over-purchasing Migrate the Web portal to a Microsoft solution Reduce the costs associated with migrating the Web portal Reduce the costs of upgrading to the latest version of Office Ensure that external users are authenticated when they connect to the Web portal Standardize

the desktop operating systems Standardize the desktop applications by using an imaging technology
