NEW QUESTION: 1An instructor is preparing to start a class where several learners have arrived late due to bad weather. The general mood of the learners is poor. Which of the following is the BEST way to handle this situation?**A.** Use humor that will create a positive mood.**B.** Tell the learners that the class will run late that day**C.** Have the learners introduce themselves.**D.** Proceed with the course material.**Answer: A**

NEW QUESTION: 2A TAS uses a commercial test automation tool and the default logs generated by the inconsistent formats such as different types of messages (pass/fail steps, screenshots, warnings, etc.) To solve this issue some custom logging functions have been created from the test scripts, making it possible to log the different types of messages with the same format. However, this may cause a problem due to excessive size of the logs which can make it difficult to find the required information. Assume that all the default logs will be disabled when running the automated tests and that some tests will not generate excessively sized logs.Which of the following represents the BEST suggestion for implementing the custom logging functions?**A.** Implement the custom logging functions without saving timestamps**B.** Implement the custom logging functions to support different levels of tracing**C.** Implement the custom logging functions to redirect the logs to multiple files**D.** Implement the custom logging functions without saving stack traces**Answer: B**

NEW QUESTION: 3A risk assessment and business impact analysis (BIA) have been completed for a major proposed purchase and new process for an organization. There is disagreement between the information security manager and the business department manager who will own the process regarding the results and the assigned risk. Which of the following would be the BEST approach of the information security manager?**A.** A new risk assessment and BIA are needed to resolve the disagreement**B.** Acceptance of the information security manager's decision on the risk to the corporation**C.** Acceptance of the business manager's decision on the risk to the corporation**D.** Review of the assessment with executive management for final input**Answer: D****Explanation:**Explanation/Reference:Explanation:Executive management must be supportive of the process and fully understand and agree with the results since risk management decisions can often have a large financial impact and require major changes. Risk

management means different things to different people, depending upon their role in the organization, so the input of executive management is important to the process.
