These tests will also highlight your [Real C-WZADM-01 Dumps](#) weak areas in studies which you can improve before taking exam.

NEW QUESTION: 1You have deployed a load-balancing service for a customer in your Contrail cloud networking environment for their data cache system. Due to network capacity requirements, the caching servers must be migrated to a different rack of equipment within the data center.Which two statements are true in this scenario? (Choose two)**A.** The orchestrator platform can remap the traffic through the existing load-balancing service once the caching servers are moved.**B.** The load-balancing service must be decommissioned and re-provisioned once the caching servers are moved.**C.** The load-balancing service can be migrated to the vRouter where the caching servers are located.**D.** A new load-balancing service will be provisioned by the orchestrator prior to moving the caching servers.**Answer: A,D**

NEW QUESTION: 2Which of the following methods will force an EAV resource collection model to include an attribute in its result set?**A.** `getSelect ()->from (' ', $attribute);`**B.** `addAttributeToCollection ($attribute);`**C.** `getResource () ->addAttribute($attribute);`**D.** `addAttributeToSelect ($attribute);`**E.** `addFieldToSelect ($attribute);`**Answer: D**

NEW QUESTION: 3A company named Contoso, Ltd. has a SharePoint farm. The farm has one Search service application configured. The Search service application contains five crawl databases, all of which contain content.Contoso plans to crawl knowledge base content from its partner company Litware, Inc. The knowledge base content must be stored in a dedicated crawl database.You need to configure crawling.What should you do?**A.** Create a dedicated Microsoft SQL Server instance for the Litware crawl database.**B.** Add a crawl database that contains the Litware knowledge base to the existing Search service application.**C.** Provision a new Search service application. Configure the service application to crawl the Litware knowledge base content.**D.** Set the MaxCrawlDatabase parameter to 6.**Answer: C****Explanation:** The maximum number of crawl databases is 5 per Search service application so we need another Search service application. This maximum limit is increased to 15 with an Office 2013 update but the question doesn't mention that this update is installed so we have to assume the question was written before the update was released.

NEW QUESTION: 4Which of the following permissions are configured when releasing an app? (Multiple Choice)**A.** URL**B.** Service**C.** Button**D.** Page**Answer: A,B,C,D**
