The method must meet the following requirements: Return "Error" if the statusCode is 0. Return "Success" if the statusCode is 1. Return "Unauthorized" if the statusCode is any value other than 0 or 1. You need to implement the method to meet the requirements. How should you complete the relevant code? (To answer, drag the appropriate statements to the correct locations in the answer area. Each statement may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.) **Answer:**

Explanation:

NEW QUESTION: 4 **Answer:** Explanation: Topic 4, Trey Research Overview General Overview Trey Research is a brokerage firm that has 5,000 users. Trey Research has a finance department, a human resources department, an investment department, and a legal department. Trey Research is acquiring a partner company named Fabrikam, Inc. Physical Locations Trey Research has four main offices located in Boston, Chicago, New York, and Atlanta. The offices connect to each other by using a WAN link. The Chicago office connects directly to the Internet. Existing Environment Network Environment Trey Research has an Active Directory forest named treyresearch.com. The forest contains a single domain. All domain controllers run Windows

Server 2012. Each office is configured as an Active Directory site. All user accounts are in an organizational unit (OU) based on their department. All users are in a universal security group based on their department. Trey Research has a Lync Server 2013 infrastructure. The infrastructure is configured to require encryption for voice traffic. Exchange Server Organization Trey Research has an Exchange Server organization that contains five servers. The servers are configured as shown in the following table. The mailbox databases are mounted on the Exchange servers shown in the following table. All of the mailboxes of the users in the executives department are mounted on DB3. A public folder database named PF1 is mounted on EX5. The Exchange Server organization has the following configurations: Users in the legal department use a shared mailbox named Legal. Legal is enabled for In-Place Hold. Legal is the only mailbox on DB2. All inbound and outbound email messages to and from the Internet are routed through EX1. Email messages sent and received by Fabrikam are secured by using Mutual TLS. All public folders are stored in PF1. All users connect to their mailbox by using Microsoft Outlook 2013 and Outlook Web App. Fabrikam has an Exchange Server 2013 organization.

Problem Statements Trey Research identifies the following issues: After a change to a certificate, users report that email messages sent to Fabrikam are not delivered. The storage for DB3 fails. The storage will be offline for the next two days.

Requirements Planned Changes Trey Research plans to implement the following changes: Move all public folders to an Exchange Server 2013 server. The solution must ensure that all users cannot modify the public folders stored on EX5 after the planned move. Integrate Unified Messaging (UM) services with the Lync Server 2013 infrastructure. Collaboration Requirements Custom recipient MailTips created in the Exchange Server organization of Trey Research must be visible to the users at Fabrikam. The solution must ensure that administrators can define a subset of users who can share their MailTips.

Auditing Requirements The following actions must be audited for actions in the Legal mailbox only: Delegate - Purge mailbox content Delegate - Transfer file between folders Administrator - Messages sent by administrator Administrator - Open any content within the mailbox

Security Requirements Trey Research identifies the following security requirements: Ensure that the users in the finance department can protect email messages from being altered in transit, regardless of the recipient. Prevent the email messages sent to the users in the human resources department from being forwarded to external recipients. Prevent the audio files in voice mail message marked as Private from being extracted from email messages. Redirect email messages that contain social security information to the legal department.

Compliance Requirements Trey Research identifies the following compliance requirements: All users must be notified before they send an email message that contains any message. Users must use a custom message classification when they send email messages. Only the users in the legal department must be able to use eDiscovery to view the five bank account numbers to an external recipient. The users must be able to override the requirement if they have a valid business reason to send the email that contain information about the planned acquisition of Fabrikam. contents of email messages sent by the finance department users.
