The great advantage of the APP online version is if only the clients use our NRCMA study materials in the environment with the internet for the first time on any electronic equipment they can use our NRCMA study materials offline later.

Sometimes choice is greater than endeavor.

**NEW QUESTION: 1** Wer ist am wichtigsten, wenn Sie den Reaktionsprozess für eine signifikante Sicherheitsverletzung einrichten, die sich auf die IT-Infrastruktur auswirken und zu einem Verlust von Kundendaten führen würde? **A.** Ein Forensiker für Evidenzmanagement **B.** Ein unabhängiger Prüfer zur Feststellung von Kontrollmängeln **C.** Ein Penetrationstester zur Validierung des Angriffs **D.** Ein Experte für Schadensbewertung zur Berechnung von Verlusten  
**Answer: A**

**NEW QUESTION: 2** You administer a Windows 10 Enterprise computer. The computer has File History turned on, and system protection turned on for drive C. You accidentally delete a folder named Libraries\Customers by using the Shift+Delete keyboard shortcut. You need to restore the most recent version of the folder to its original location. Which approach should you use to restore the folder? **A.** a manually selected restore point **B.** the latest restore point **C.** Recycle Bin **D.** File History  
**Answer: D**  
Explanation: Explanation/Reference: Explanation: File History is similar to Previous Versions in previous versions of Windows. It takes regular backups of your data and saves them to a separate disk volume or external drive. When File History is enabled, it backs up all the system libraries and your custom libraries by default. To restore a deleted folder, you can browse to the parent folder or library and select Restore Previous Versions. The Previous Versions tab will list the previous versions that can be restored to its original location or restored to an alternative location.  
Incorrect Answers: **A:** The question states that you deleted the folder by using the Shift+Delete keyboard shortcut. The Shift+Delete keyboard shortcut bypasses the Recycle Bin; the file or folder is permanently deleted without moving it to the Recycle Bin. **B:** System Restore points do not back up user data. They are used for restoring the system and applications to a previous state. You cannot use a System Restore point to recover a deleted folder. **D:** System Restore points do not back up user data. They are used for restoring the system and applications to a previous state. You cannot use a System Restore point to recover a deleted folder.

**NEW QUESTION: 3** If your project is under budget, your cost variance (CV) is: **A.** Negative **B.** 0 **C.** Positive **D.** 1  
**Answer: C**

**NEW QUESTION: 4** While working on the configuration of your client, you uncover that the ASNs will always have the correct serial number information interfaced upfront and your client trusts the ASN Information. Your client also needs the serial number information to get into WMS Cloud when the items are received from POs. Which three actions do you need to take, assuming that item A is serial-tracked? **A.** Set item A's require serial number parameter to

"Required, validate and allow user override".**B.** Create the Serial Number barcode type.**C.** Create the IB Container barcode type.**D.** Set the company parameter serial.\_number\_tracping\_level to 2.**E.** Set item A's require serial number parameter to "Required, don't Validate".**Answer: A,C,D**
