NEW QUESTION: 1Which identity store option allows you to modify the directory services that run on TCP/IP?**A.** RSA SecurID server**B.** RADIUS**C.** Active Directory**D.** Lightweight Directory Access Protocol**Answer: D**

NEW QUESTION: 2The administrator installs database software to encrypt each field as it is written to disk.Which of the following describes the encrypted data?**A.** In-transit**B.** In-use**C.** At-rest**D.** Embedded**Answer: C****Explanation:**Data in use is an information technology term referring to active data which is stored in a non- persistent digital state typically in computer random access memory (RAM), CPU caches, or CPU registers.Data in transit is defined into two categories, information that flows over the public or untrusted network such as the internet and data which flows in the confines of a private network such as a corporate or enterprise Local Area Network (LAN). [1] Data in transit is also referred to as data in motion.Data at rest in information technology means inactive data that is stored physically in any digital form (e.g. databases, data warehouses, spreadsheets, archives, tapes, off-site backups, mobile devices etc.).

NEW QUESTION: 3Which user role implicitly has permission in the Events API to retrieve "message created" events from other users in the same organization?**A.** Full Administrator**B.** Compliance Officer**C.** User and Device Administrator**D.** User Administrator**Answer: B**

NEW QUESTION: 4A male client has heart failure. He has been instructed to gradually increase his activities. Which signs and symptoms of worsening heart failure should the nurse tell him to watch for that would indicate a need for him to lower his activity level?**A.** Thirst, weight loss, and polyuria**B.** Drowsiness and lethargy after his activities**C.** Pain in his legs when he walks**D.** Weight gain, edema in his lower extremities, and shortness of breath**Answer: D****Explanation:** Explanation(A) Pain in the legs could be indicative of doing too much too quickly, but not of worsening heart failure. The client should be cautioned to increase his activities slowly. (B) Thirst, weight loss, and frequent urination are not indicative of heart failure. The client should report these symptoms to his physician. (C) Drowsiness and lethargy are not indicative of worsening heart failure. The client should report these symptoms to his physician. (D) All of these symptoms indicate a worsening cardiac condition possibly associated with too much activity. The client's activity level should be evaluated.
