NEW QUESTION: 1Regarding the different system redirection, which of the following descriptions is wrong?**A.** Measurement-based redirection is the measurement of the target cell using the B2 event of PSH0**B.** Blind redirection only measures the signal strength of the serving cell itself, and does not detect the signal strength of the redirected target cell.**C.** The redirection execution needs to send a handover request to the neighboring cell with the highest blind priority.**D.** Redirection is divided into blind redirection and measurement-based redirection

Answer: C

NEW QUESTION: 2You are a licensing specialist. Your customer is Northwind Traders, a small manufacturer of winter sportswear. Company BackgroundNorthwind Traders sells sportswear to outlets in the United States and Canada. NorthwindTraders has 200 sales representatives. Network DescriptionEach sales representative has a portable computer and a handheld device. NorthwindTraders purchased 100 new portable computers for the sales force less than 60 days ago. These new computers had Microsoft Windows XP Professional and Microsoft Office 2003 Professional preinstalled. The company has 80 desktops in the main office. These desktops are older PCs running Windows 98 and Office 97 Professional. Current Licensing SolutionIn July 2002, Northwind Traders purchased licenses and Software Assurance for Windows98 and Office Professional on the desktops through the Open License program. No upgrades have been

installed, due to the hardware constraints of the older desktops. Business Goals Northwind Traders plans to launch an online store to expand its business into the worldwide market. The company plans to update its server environment with the following software: Windows Server 2003, Microsoft Exchange Server 2003, Microsoft SharePoint Portal Server 2003, Microsoft SQL Server 2000, for its online store. The company plans to replace the 100 older portable computers within the next year. The company wants to continue to increase sales by effectively servicing existing customers and by expanding its customer base without adding employees. The company president wants to standardize all software on the desktops and the portable computers, but he does not want to spend budget on upgrading the 80 noncritical desktops.

End of repeated scenario You need additional information before you can recommend the most appropriate licensing solution. What additional information do you need?

A. the number of expected daily visitors to the Web site
B. the software acquisition process
C. the number of servers
D. the location of the sales representatives

Answer: B

NEW QUESTION: 3 A vendor has notified you that a shipment will be 3 weeks late. This will also delay the manufacturing of several other items. Recognizing that you will need to make some changes to the project, what is your next step?

A. Coordinate the change across all impacted areas
B. Ensure that the change is reflected in the product definition
C. Reference the penalty clause in the vendor contract
D. Change the schedule baseline

Answer: A
