NEW QUESTION: 1 Universal Containers sells its products online using a system built on Force.com sites. The orders are captured and processed in Salesforce. The company uses an external marketing system and would like to make use of the customer data captured in Salesforce. The marketing system has REST API that can be used to push data into it. Which three options should a Technical Architect consider that do not require building custom web services on the marketing system? Choose 3 answers. **A.** Write a custom Apex web service, which will be called from the marketing system to retrieve customer data. **B.** Use Apex callout to send customer data from Salesforce to the marketing system. **C.** Use outbound messages to send customer data from Salesforce to the marketing system. **D.** Use a middleware tool to pull customer data from Salesforce and push it to the marketing system on a daily basis. **E.** Build a custom Java application using the Enterprise WSDL to pull data from Salesforce and push it to the marketing system. **Answer: A,B,C**

NEW QUESTION: 2 A customer has a critical invoice application for which the system is mostly underutilized. During the last week of the month, response times become unacceptable due to growth. The customer does not want to pay for a system that is idle most of the time. What should be proposed? **A.** Capacity Upgrade On Demand **B.** Power Enterprise Pools **C.** Elastic Capacity On Demand **D.** Active Memory Expansion **Answer: D** Explanation: IBM's POWER8 systems with AIX@ feature Active Memory Expansion, a new technology for expanding a system's effective memory capacity. Active Memory Expansion employs memory compression technology to transparently compress in-memory data, allowing more data to be placed into memory and thus expanding the memory capacity of POWER8 systems. Utilizing Active Memory Expansion can improve system utilization and increase a system's throughput.

NEW QUESTION: 3 **A.** Option C **B.** Option B **C.** Option D **D.** Option A **Answer: C**
