Also it is available for presenting, And they can assure your success by precise and important information on your 312-38 exam, High quality Certified Ethical Hacker Collaboration EC-Council Certified Network Defender CND dumps youtube demo update free shared.

Finally when it comes to APP online version of 312-38 test braindumps, as long as you open this study test engine, you are able to study whenever you like and wherever you are.

The 312-38 preparation material package includes the latest 312-38 PDF questions and the practice test helps you in clearing all of your doubts of EC-Council Certified Network Defender CND exam.

Every year some knowledge of the 312-38 practice braindumps is reoccurring over and over, So, please believe us, 0 error rate is our commitment, Considerate aftersales service 24/7.

This ensures that you will cover more topics thus increasing your chances of success, Our 312-38 certified professional team continuously works on updated exam content with latest 312-38 questions.

NEW QUESTION: 1 Solution: Delete the ~/.ssh directory after creating the VMs. **A. No** **B. Yes**

Answer: A Explanation: Explanation References:

<https://github.com/MicrosoftDocs/azure-docs/blob/master/articles/virtual-machines/linux/mac-create-ssh-keys.m>

NEW QUESTION: 2 One of your company's EC2 Instances have been compromised. The company has strict thorough investigation on finding the culprit for the security breach. What would you do in from the options given below. Please select: **A. Take a snapshot of the EBS volume** **B. Isolate the machine from the network** **C. Make sure that logs are stored securely for auditing and troubleshooting purpose** **D. Ensure all passwords for all IAM users are changed** **E. Ensure that all access keys are rotated.** **Answer: A, B, C** Explanation: Some of the important aspects in such a situation are 1) First isolate the instance so that no further security harm can occur on other AWS resources 2) Take a snapshot of the EBS volume for further investigation. This is incase if you need to shutdown the initial instance and do a separate investigation on the data 3) Next is Option C. This indicates that we have already got logs and we need to make sure that it is stored securely so that n unauthorised person can access it and manipulate it. Option D and E are invalid because they could have adverse effects for the other IAM users. For more information on adopting a security framework, please refer to below URL https://d1.awsstatic.com/whitepapers/compliance/NIST_Cybersecurity_Framework_Note: In the question we have been asked to take actions to find the culprit and to help the investigation or to further reduce the damage that has happened due to the security breach. So by keeping logs secure is one way of helping the investigation. The correct answers are: Take a snapshot of the EBS volume. Isolate the machine from the network. Make sure that logs are stored securely for auditing and troubleshooting purpose Submit your Feedback/Queries to our Experts

NEW QUESTION: 3

不正なデバイスがネットワークに接続され、STPルートブリッジになり、ネットワークの可用性の問題が発生しました。この問題から保護できるコマンドはどれですか？

(2つ選択してください。) **A. switch(config-if)#spanning-tree portfast disable** **B. switch(config)#spanning-tree portfast bpduguard default** **C. switch(config-if)#spanning-tree port-priority 0** **D. switch(config-if)#spanning-tree portfast** **E. switch(config)#spanning-tree portfast bpdufilter default** **F. switch(config-if)#switchport port-security violation protect**

Answer: B, D

NEW QUESTION: 4You are designing an HTML5 website. You need to design the interface to make the content of the web page viewable in all types of browsers, including voice recognition software, screen readers, and reading pens. What should you do?
