**NEW QUESTION: 1** Which of the following types of cyberstalking damages the reputation of their victim and turns other people against them by setting up their own Websites, blogs, or user pages for this purpose? **A.** False accusation **B.** False victimization **C.** Attempts to gather information about the victim **D.** Encouraging others to harass the victim **Answer: A** **Explanation:** In false accusations, many cyberstalkers try to damage the reputation of their victim and turn other people against them. They post false information about them on Websites. They may set up their own Websites, blogs, or user pages for this purpose. They post allegations about the victim to newsgroups, chat rooms, or other sites that allow public contributions. Answer option D is incorrect. In false victimization, the cyberstalker claims that the victim is harassing him/her. Answer option C is incorrect. In this type of cyberstalking, many cyberstalkers try to involve third parties in the harassment. They claim that the victim has harmed the stalker in some way, or may post the victim's name and telephone number in order to encourage others to join the pursuit. Answer option B is incorrect. In an attempt to gather information, cyberstalkers may approach their victim's friends, family, and work colleagues to obtain personal information. They may advertise for information on the Internet. They often will monitor the victim's online activities and attempt to trace their IP address in an effort to gather more information about their victims.

**NEW QUESTION: 2** Which of the following should occur at each stage of the SDLC? **A.** Added functionality **B.** Verification and validation **C.** Repurposing of any newly developed components **D.** Management review **Answer: B**

**NEW QUESTION: 3** Galena Petrovich, CFA, is an analyst in the New York office of TRS Investment Management, Inc. Petrovich is an expert in the industrial electrical equipment sector and is analyzing Fisher Global. Fisher is a global market leader in designing, manufacturing, marketing, and servicing electrical systems and components, including fluid power systems and automotive engine air management systems. Fisher has generated double-digit growth over the past ten years, primarily as the result of acquisitions, and has reported positive net income in each year. Fisher reports its financial results using International Financial Reporting Standards (IFRS). Petrovich is particularly interested in a transaction that occurred seven years ago, before the change in accounting standards, in which Fisher used the pooling method to account for a large acquisition of Dartmouth Industries, an industry

competitor. She would like to determine the effect of using the purchase method instead of the pooling method on the financial statements of Fisher. Fisher exchanged common stock for all of the outstanding shares of Dartmouth. Fisher also has a 50% ownership interest in a joint venture with its major distributor, a U.S. company called Hydro Distribution. She determines that Fisher has reported its ownership interest under the proportioned consolidation method, and that the joint venture has been profitable since it was established three years ago. She decides to adjust the financial statements to show how the financial statements would be affected if Fisher had reported its ownership under the equity method. Fisher is also considering acquiring 80% to 100% of Brown and Sons Company. Petrovich must consider the effect of such an acquisition on Fisher's financial statements. Petrovich determines from the financial statement footnotes that Fisher reported an unrealized gain in its most recent income statement related to debt securities that are designated at fair value. Competitor firms following U.S. GAAP classify similar debt securities as available-for-sale. Finally, Petrovich finds a reference in Fisher's footnotes regarding a special purpose entity (SPE). Fisher has reported its investment in the SPE using the equity method, but Petrovich believes that the consolidation method more accurately reflects Fisher's true financial position, so she makes the appropriate adjustments to the financial statements. Regarding the prior purchase that was accounted for under the pooling of interests method, had Fisher Global reported this purchase under the acquisition method: **A.** reported goodwill could be less depending on the fair value of the identifiable assets and liabilities compared to their book values. **B.** the assets and liabilities of the purchased firm would not be included on Fisher's balance sheet. **C.** balance sheet assets and liabilities of the purchased firm would have been reported at fair value. **Answer: C**  
Explanation: Explanation/Reference: Explanation: The assets and liabilities of the purchased firm are included on the balance sheet of the acquiring firm under either method. Under the pooling method, there is no adjustment of balance sheet asset and liability values to their fair values. Under the acquisition method, assets and liabilities acquired are reported at fair value at the time of the purchase. There is no goodwill reported under the pooling method; the purchase price is not reflected on the balance sheet of the acquiring firm. (Study Session 5. LOS 21.a)
