NEW QUESTION: 1Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. NEW QUESTION: 3 Which of the following representations should not be included in a report on internal control related matters noted in an audit of a nonissuer?
A. Corrective follow-up action is recommended due to the relative significance of material weaknesses discovered during the audit.
B. There are no significant deficiencies in the design or operation of internal control.
C. Significant deficiencies related to internal control design exist, but none is deemed to be a material weakness.
D. The auditor's consideration of internal control would not necessarily disclose all significant deficiencies that exist.
Answer: B
Explanation: Explanation/Reference: Explanation: Choice "B" is correct. A report on internal control related matters noted in an audit should not state that there are no significant deficiencies in internal control, since this statement might erroneously imply that the auditor searched for such conditions. Choice "A" is incorrect. The auditor is permitted to state that no material weaknesses were identified during the audit. Typically, this occurs in reports submitted to governmental authorities. Choice "C" is incorrect. The auditor may suggest that corrective follow-up action should be taken due to the relative significance of material weakness discovered. Choice "D" is incorrect. The auditor's report may state that his or her consideration of internal control would not necessarily disclose all significant deficiencies that exist.
