i got recommendation about your products from a colleague, We have taken all your requirements into account, The Google-Workspace-Administrator dumps practice test software is easy to install and has a simple interface.

NEW QUESTION: 1 A technician finishes building a custom gaming computer. When the system is turned on, however, all the fans spin and the LEDs light up on the motherboard, but the system does not POST and the monitor remains blank. Which of the following did the technician fail to connect to the motherboard?
A. Power LED
B. Motherboard power cable
C. CPU power cable
D. SATA signal cable
Answer: C

NEW QUESTION: 2 A project manager has a team of shared resources from other projects who are working on a client project. Three days before the project is due, the team informs the project manager that the project will be delayed because a component was not delivered on time. Competing priorities of the shared resources are delaying delivery of the component. What should the project manager have done to prevent this delay from happening?
A. Used the resource management plan to identify the impacts of the other projects
B. Maintained constant communication with the stakeholders of the other projects
C. Reorganized the team for the project based on the work breakdown structure (WBS)
D. Updated the risk management plan and registered lessons learned for the project
Answer: B

NEW QUESTION: 3 A company has several Amazon EC2 instances set up in a private subnet for security reasons. These instances host applications that read and write large amounts of data to and from Amazon S3 regularly. Currently, subnet routing directs all the traffic destined for the internet through a NAT gateway. The company wants to optimize the overall cost without impacting the ability of the application to communicate with Amazon S3 or the outside internet. What should a solutions architect do to optimize costs?
A. Create an additional NAT gateway. Update the route table to route to the NAT gateway. Update the network ACL to allow S3 traffic.
B. Create a VPC endpoint for Amazon S3. Attach an endpoint policy to the endpoint. Update the route table to direct traffic to the VPC endpoint.
C. Create an internet gateway. Update the route table to route traffic to the internet gateway. Update the network ACL to allow S3 traffic.
D. Create an AWS Lambda function outside of the VPC to handle S3 requests. Attach an IAM policy to the EC2 instances, allowing them to invoke the Lambda function.
Answer: B
