Answer: A,E
Explanation: Explanation/Reference: Explanation:

NEW QUESTION: 3 Your organization has multiple procurement business units. A Qualification manager wants to launch an initiative for assessment of suppliers. However, the manager is unable to select the qualification model that he or she defined earlier. Identify the cause for this behavior.
A. The qualification model is not yet approved.
B. The Qualification manager is not defined as procurement agent.
C. The Qualification manager has not selected the correct procurement BU.
D. The Qualification manager does not have the "Manage Suppliers" action enabled in procurement agent definition.
Answer: C
Explanation: Explanation
<https://docs.oracle.com/en/cloud/saas/procurement/20a/oaprc/manage-supplier-information.html#OAPRC122404> Default Assessment Owner: Select a user to set as the default assessment owner for all the accessing procurement BUs when this qualification model is included in an assessment. When a default assessment owner is assigned, then all the procurement BUs that have access to this model will have this user as the default assessment owner unless specified otherwise in the Business Unit Access or Business Unit Defaults table. Business Unit Access: You can assign a default assessment owner for various business units. When the area isn't global BU access, you can also add the procurement business units which can use this qualification model.
