**NEW QUESTION: 1** Insurance contracts are also considered \_\_\_\_\_ in that they are legal documents that required the insurer to pay if covered events occur. Because the insurance company creates the contract, it is liable if there are any ambiguities in the contract language.  
**A. Unilateral****B. Contracts of adhesion****C. Incontestable****D. Bilateral****Answer: B**

**NEW QUESTION: 2** Which two statements about QoS options in a Cisco UCS environment are true? (Choose two.)  
**A. When configuring a system class, the type of adapter in a server may limit the maximum MTU supported.****B. Flow-control policies determine whether the uplink Ethernet ports in a Cisco UCS environment send and receive IEEE 802.3x pause frames when the send buffer for a port fills.****C. The QoS policy assigns a system class to the outgoing traffic for a vNIC or vHBD.** If no system class is configured as CoS 0, the Fibre Channel system class is used.**E. The user can configure QoS for these system classes: platinum, gold, silver, best effort, Fibre Channel.****Answer: A,C**

**NEW QUESTION: 3** Who should measure the effectiveness of Information System security related controls in an organization?  
**A. The local security specialist****B. The central security manager****C. The systems auditor****D. The business manager****Answer: C****Explanation:** It is the systems auditor that should lead the effort to ensure that the security controls are in place and effective. The audit would verify that the controls comply with polices, procedures, laws, and regulations where applicable. The findings would provide these to senior management. The following answers are incorrect: the local security specialist. Is incorrect because an independent review should take place by a third party. The security specialist might offer mitigation strategies but it is the auditor that would ensure the effectiveness of the control the business manager. Is incorrect because the business manager would be responsible that the controls are in place, but it is the auditor that would ensure the effectiveness of the controls. the central security manager. Is incorrect because the central security manager would be responsible for implementing the controls, but it is the auditor that is responsible for ensuring their effectiveness.

**NEW QUESTION: 4** An EMC NetWorker backup client contains 650 GB of data in 750,000 files and is presently being backed up by an EMC NetWorker server-to-storage node with six tape drives connected via Fibre Channel. Analysis has determined that the storage node and SAN

connections to the tape drive are not impacting performance. What is the recommended method for backing up this client?**A.** Add another storage node to the EMC NetWorker environment distributing the load and bandwidth across the environment.**B.** Configure the client as a dedicated storage node and assign an appropriate number of tape drives.**C.** Add four additional tape drives to the library.**D.** Increase the number of Fibre Channel ports into the SAN.**Answer: B**
