Main principles of company to help exam candidates.

NEW QUESTION: 1In a help desk application, you have the following requirement: The Customer Support Representative must respond to a help desk ticket within 4 hours after a customer submits a ticket. Where do you configure the service level to meet this requirement?
A. The step
B. The case type
C. The stage
D. The process
Answer: A

NEW QUESTION: 2Your network contains a public computer that runs Windows 7. Multiple users log on to the computer by using a local user account named User1. Users report that they can log on to some secure Web sites by using credentials that were saved by other users. You need to prevent forms-based credentials from being saved on the computer. What should you do?
A. Remove all Windows credentials from Windows Vault.
B. Modify the Windows Internet Explorer AutoComplete settings.
C. Remove all generic credentials from Windows Vault.
D. Modify the Windows Internet Explorer certificates settings.
Answer: B
Explanation: AutoComplete settings AutoComplete is a feature in Internet Explorer that remembers the information you have typed into the Address bar, web forms, or password fields, and which automatically fills in that information if you start to type the same thing again later. This saves you from having to type the same information over and over.
