http://www.cisco.com/en/US/solutions/ns170/networking_solutions_products_genericcontent0900aecd8051f378.html Create a Stronger Defense Against Threats Each day, you reinvent how you conduct business by adopting Internet-based business models. But Internet connectivity without appropriate security can compromise the gains you hope to make. In today's connected environment, outbreaks spread globally in a matter of minutes, which means your security systems must react instantly. Maintaining security using tactical, point solutions introduces complexity and inconsistency, but integrating security throughout the network protects the information that resides on it. Three components are critical to effective information security:A secure network platform with integrated security to which you can easily add advanced security technologies and servicesThreat control services focused on antivirus protection and policy enforcement that continuously monitor network activity and prevent or mitigate problemsSecure communication services that maintain the privacy and confidentiality of sensitive data, voice, video, and wireless communications while cost-effectively extending the reach of your network
