NEW QUESTION: 1 Which two statements correctly describes ASA resource management in multiple context mode? (Choose two.)
A. A resource cannot be oversubscribed or set to be unlimited in the class.
B. The default class provides unlimited access for all the resources.
C. The resource limit can only be set as a percentage in the class and not as an absolute value.
D. The class sets the resource maximum limit for a context to which it belongs.
E. Context belongs to a default class if not assigned to any other class.
Answer: D,E

NEW QUESTION: 2 You have a System Center 2012 R2 Configuration Manager Service Pack 1 (SP1) deployment that contains 8,000 client computers. When a custom application named App1.exe is installed on a computer, a registry value of App1=TRUE is added to the registry. App1 is installed on approximately half of the computers. You need to recommend a solution for creating a collection named Collection1 that contains only computers on which App1.exe is installed. The solution must minimize administrative effort. What should you include in the recommendation?
A. a software category
B. a collection that has a direct membership rule
C. the custom client device settings
D. a configuration item
Answer: B
Explanation:
Explanation/Reference: Explanation: Membership rule of the direct rule type let you choose the users or computers that you want to add as members to a collection. This rule gives you direct control over which resources are members of the collection. This membership does not change unless a resource is removed from Configuration Manager. Configuration Manager must have discovered the resources or you must have imported the resources before you can add them to a direct rule collection. Direct rule collections have a higher administrative overhead than query rule collections because you must make changes to this collection type manually.

NEW QUESTION: 3 Refer to the exhibit. Which two commands were used to create port channel 10? (Choose two)
A. Option A
B. Option E
C. Option C
D. Option B
E. Option D
Answer: A,C
