**NEW QUESTION: 3**You have a Dynamics CRM organization.You enable Manager Hierarchy security.You have the users shown in the following table.You need to identify which actions the Vice President can perform.What should you identify?**A.** Read and update the records owned by Sales Manager. Read the records owned by Sales User.**B.** Read and update the records owned by Sales Manager. Read and update the records owned by Sales User.**C.** Read and update the records owned by Sales Manager. Read the records owned by CEO.**D.** Read all of the records in organization. Edit the records owned by Sales Manager.**Answer: A****Explanation:** Explanation/Reference:With the Manager hierarchy security model, a manager has access to the records owned by the user or by the team that a user is a member of, and to the records that are directly shared with the user or the team that a user is a member of.In addition to the Manager hierarchy security model, a manager must have at least the user level Read privilege on an entity, to see the reports' data. For example, if a manager doesn't have the Read access to the Case entity, the manager won't be able to see the cases that their reports have access to.
