It is normally used on online.

NEW QUESTION: 1For the purposes of calculating VaR, an interest rate swap can be modeled as a combination of:**A.** a fixed coupon bond and a floating rate note**B.** a zero coupon bond and an interest rate swap**C.** two zero coupon bonds**D.** a fixed rate bond and a zero coupon bond
Answer: A
Explanation:ExplanationIn an interest rate swap, the parties agree to exchanging interest rate payments, with one party being a fixed interest rate payer and the other paying floating rates. The party receiving fixed rates and paying floating can be considered to be long a fixed rate bond and short a floating rate note. Therefore an IRS can be modeled as a combination of a fixed coupon bond and a floating rate note. Choice 'b' is the correct answer.

NEW QUESTION: 2Refer to the exhibit. We have performed a malware detection on the Cisco website. Which statement about the result is true?**A.** The website has been marked benign on all 68 checks.**B.** The website has been marked benign on 0 checks.**C.** The threat detection needs to run again.**D.** The website has 68 open threats.**Answer: A**

NEW QUESTION: 3Which two statements about RSTP and MSTP BPDUs are true? (Choose two.)
A. RSTP switches can process MSTP version 3 BPDUs.**B.** MSTP switches can detect boundary ports when they receive RSTP version 2 BPDUs.**C.** When all boundary switches are running RSTP, MST sends only version 0 configuration BPDUs.**D.** MSTP switches can detect boundary ports when they receive RSTP version 1 BPDUs.**Answer: A,B**
Explanation:A switch running both MSTP and RSTP supports a built-in protocol migration mechanism that enables it to interoperate with legacy 802.1D switches. If this switch receives a legacy 802.1D configuration BPDU (a BPDU with the protocol version set to 0), it sends only 802.1D BPDUs on that port. An MST switch can also detect that a port is at the boundary of a region when it receives a legacy BPDU, an MST BPDU (version 3) associated with a different region, or an RST BPDU (version 2).
