Fast delivery of Integrated-Physical-Sciences online test engine.

NEW QUESTION: 1 DRAG DROP An organization has an Office 365 tenant that uses an Enterprise E3 subscription. The organization plans to migrate users to Office 365. You do not want users to install Office 365 ProPlus until you complete the migration. You need to prevent all users from self-provisioning Office 365 ProPlus. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. **Answer:** Explanation: As an Office 365 admin, you can use the User software page in the Office 365 admin center to choose whether users can install Office software from the Office 365 portal. For example, you might want to let users install Word, Excel, and PowerPoint, but not Visio. Whatever you decide to do, your choice applies to all users. To choose which Office software that users can install from the portal Sign in to Office 365 with your work or school account. Go to the Office 365 admin center, and then choose Service Settings > User software. In the Manage user software through Office 365 section you'll see a list of available Office software. If the check box is selected, users can install that Office software. By default, all check boxes are selected. Clear the check box if you don't want users to install that Office software. If you make a change, click Save. References:
