NEW QUESTION: 1You are creating a calculated column to calculate an employee's organizational tenure. Why does the formula in the screenshot result in an error? **A.** An incorrect data type has been selected. **B.** An "if then else" statement needs to be included. **C.** The result of the formula is negative. **D.** An incorrect dynamic date variable has been used. **Answer: D**

NEW QUESTION: 2What are two reasons that it is always preferable to obtain a digital copy of the "as built" drawings for a site you need to perform a WLAN site survey on? (Choose two.) **A.** A digital copy of the "as built" drawings includes all the changes made during construction that are not included in the design drawings. **B.** A digital copy of the "as built" drawings includes a full set of preliminary mechanical drawings so sources of interference, diffusion, and absorption can be easily identified. **C.** A digital copy of the "as built" drawings allows you to more accurately estimate physical AP placement in the customer environment. **D.** A digital copy of the "as built" drawings is always more accurate than design drawings because it includes the placement of office furniture. **E.** A digital copy of the "as built" drawings assists in the placement of WLAN equipment so the WLAN signal minimizes wired network delay. **Answer: A,C**

NEW QUESTION: 3What is a function of supplier management? **A.** Reassess contract prior to renewal **B.** Correct problems in supplied products **C.** Plan for investments and IT budget **D.** Map consumers to service assets **Answer: A**

NEW QUESTION: 4DRAG DROPYour network contains an Active Directory forest. The forest contains two domains named contoso.com and fabrikam.com. You plan to decommission the fabrikam.com domain. You need to perform the following migration tasks: Copy user accounts from the fabrikam.com domain to the contoso.com domain. Move the client computers from fabrikam.com to contoso.com. The solution must ensure that all of the user profiles are associated to the migrated user accounts. Which tool should you use to perform each task? To answer, drag the appropriate tool to the correct migration task in the answer area. Each tool may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content. **Answer:** Explanation: Box 1: Active Directory Migration Tool (ADMT) Box 2: Active Directory Migration Tool (ADMT) Note: * You can use ADMT to migrate objects in Active Directory forests. This tool includes wizards that automate migration tasks, such as migrating users, groups, service accounts, computers, and trusts and performing security translation. * You might perform an interforest restructure for business changes, such as mergers or acquisitions or divestitures, in which your organizations have to combine or divide resources. As part of the restructuring process, when you migrate objects between forests both the source and target domain environments exist simultaneously. * Migration objects Domain objects that are moved from the source domain to the target domain during the migration process. Migration objects can be user accounts, service accounts, groups, or computers.
