That is terrible, Perhaps you can ask the people around you that AI-102 study engine have really helped many people pass the exam.

NEW QUESTION: 1HOTSPOT**Answer:** Explanation:

NEW QUESTION: 2You have a SharePoint Server 2010 server farm. You have a Web Application that contains the following site collections:-A site named Corp that has a document library named Docs-A site named Records that was created by using the Records Center site templates You need to ensure that users can route document sets from Docs to the Drop Off Library in Records. What should you do?**A.** Create a content organizer rule for the Document Set content type in Records.**B.** From Document Library Settings, set the Custom Send To Destination value to the URL of the Drop Off Library.**C.** Create a content organizer rule for the Document Set content type in Corp.**D.** From Central Administration, modify the Configure Send To Connections settings for the Web Application.**Answer: B**Explanation: BURGOS MNEMO: "Custom Send To Destination value to the URL of the Drop Off Library" @Jorbes User interaction is required here, since users "route" the documents to the drop off library. Content Organizers follow rules and move documents themselves. Also, answer A does not specify the Docs library, so it would apply to the entire site collection, which is not desired.

NEW QUESTION: 3What is a zero-day attack?**A.** An attack that is launched the day the patch is released**B.** An attack that has a known attack signature but no available patch**C.** An attack that deploys at the end of a countdown sequence**D.** An attack that utilizes a vulnerability unknown to the software developer**Answer: D**

NEW QUESTION: 4Universal Containers (UC) loads bulk leads and campaigns from third-party lead aggregators on a weekly and monthly basis. The expected lead record volume is 500K records per week, and the expected campaign records volume is 10K campaigns per week. After the upload, Lead records are shared with various sales agents via sharing rules and added as Campaign members via Apex triggers on Lead creation. UC agents work on leads for 6 months, but want to keep the records in the system for at least 1 year for reference. Compliance requires them to be stored for a minimum of 3 years. After that, data can be deleted. What statement is true with respect to a data archiving strategy for UC?**A.** UC can leverage recycle bin capability, which guarantees record storage for 15 days after deletion.**B.** UC can leverage a "tier"-based approach to classify the record storage need.**C.** UC can store long-term lead records in custom storage objects to avoid counting against storage limits.**D.** UC can leverage the Salesforce Data Backup and Recovery feature for data archival needs.**Answer: B**
