**NEW QUESTION: 1** HOTSPOT **Answer:** Explanation: Explanation: During migration which first step is to have the domain validated, the step that follows is to add users and assign licenses. Microsoft found that it is better to complete the domain configuration (with the exception of changing the MX records) and add users after the domain has been defined when migrating to Office 365. Planning for the migration involves preparation to synchronize the Active Directory. References: <https://msdn.microsoft.com/library/azure/jj151831.aspx>
