NEW QUESTION: 1 During an anonymous penetration test, Jane, a system administrator, was able to identify a shared print spool directory, and was able to download a document from the spool. Which statement BEST describes her privileges?**A.** All users have read access to the file.**B.** Jane has read access to the file.**C.** All users have write access to the directory.**D.** Jane has read access to the directory.**Answer: A****Explanation:**The question states that Jane was able to download a document from the spool directory. To view and download the document, Jane must have at least Read access to the file. The fact that the document belonged to someone else suggests that all users have read access to the file.

NEW QUESTION: 2 The managers of a company are agents for the shareholders tasked with increasing shareholders' wealth. Which of the following will usually increase shareholders' wealth?**A.** Investing in projects with the shortest payback period.**B.** Investing in projects with positive net present value.**C.** Not paying a dividend for several years in order to invest in new projects.**D.** Investing in projects with the greatest level of risk.**Answer: B**

NEW QUESTION: 3 Your network contains an Active Directory domain named contoso.com. The domain contains two memberservers named Server1 and Server2. All servers run Windows Server 2012. Server1 and Server2 are nodes in a Hyper-V cluster named Cluster1. Cluster1 hosts 10 virtual machines. All of the virtual machines run Windows Server 2012 and are members of the domain. You need to ensure that the first time a service named Service1 fails on a virtual machine, the virtual machine is moved to a different node. You configure Service1 to be monitored from Failover Cluster Manager. What should you configure on the virtual machine?**A.** From the General settings, modify the Startup type.**B.** From the General settings, modify the Service status.**C.** From the Recovery settings of Service1, set the First failure recovery action to Take No Action.**D.** From the Recovery settings of Service1, set the First failure recovery action to Restart the Service.**Answer: C**
