**NEW QUESTION: 1**Your company has a branch office that has three floors. The office currently uses a different subnet on each floor. The subnets are configured as shown in the following table. You have been asked to reconfigure the network to use one subnet that encompasses all three floors. The new subnet will come from the 192.168.0.0/16 address space. You need to identify which IP address and which subnet mask to use for the default gateway. The solution must meet the following requirements: \* Use the first available subnet \* Use a single subnet for all three floors. \* Use the first available IP address on the segment for the default gateway. \* Minimize the number of unused IP addresses. Which IP address and which subnet mask should you identify? To answer, select the appropriate options in the answer area. **Answer:**  
Explanation:

**NEW QUESTION: 2**A system administrator was asked to distribute the pcAnywhere Agent Plug-in on all Windows endpoints across a company. The administrator accepted all defaults in the pcAnywhere Solution settings and enabled the pcAnywhere Agent Plug-in. When the policy distribution was complete, many support calls came in to the help desk reporting the information listed below. - All endpoints that had another manufacturer's remote control software installed were having stability issues. - All endpoints that are behind firewalls and NAT devices were unable to be remote controlled. Which two should the system administrator have done before enabling the default policy? (Select two.) **A.** The "pcAnywhere Settings" policy settings in the Security tab should have been configured properly. **B.** The default Target in the "pcAnywhere Plug-in for Windows - Upgrade" policy should have been modified to include incompatible software applications. **C.** The "pcAnywhere Settings - Windows" policy settings in the Connection tab should have been configured properly. **D.** The default Target in the "pcAnywhere Plug-in for Windows - Install" policy should have been modified to exclude incompatible software applications. **E.** The default Target in the "pcAnywhere Plug-in for Windows - Install" policy should have been modified to include incompatible software applications. **Answer: C,D**
